Internship Opportunities
The Next Step in Building Your Career

ACCESS SERVICES
Creating better ways to serve people with special needs

www.accessservices.org
Behavorial Health Services

Behavioral Health services have energetic atmospheres with finely tuned operations that require by-the-minute decisions. An intern may work alongside crisis workers to help those living with mental illness or with case workers helping people facing homelessness or probation. Our teams exemplify how to serve others quickly and effectively. Internships are offered in services for mental health, crisis response, homeless outreach, young adult case management, children's behavioral health, and criminal justice services.

Administration

Internships in administration allow interns to see the behind the scenes operations of the agency in an office setting. Interns will learn how the bulk of our employees are supported through our integrated administrative efforts. Internships may be offered in information technology, marketing, administration, and human resources.

Apply for an internship by contacting Internship Program Manager, Jessica Halpin 215-429-4107 JHalpin@accessservices.org.

Children & Family and Intellectual Disabilities & Autism Services (IDD)

Children & Family and IDD internships offer experience in the robust and ever expanding services we offer to children, adults, and families in eastern Pennsylvania. Examples of intern experiences include supporting a child in foster care or joining a group of individuals with developmental disabilities to volunteer in community spaces. Internships are offered in services for intellectual disabilities, family support, and foster care.
