

We believe that recovery happens in community.

We believe that we have something to learn from everyone we serve.

We believe that people deserve our best selves.

We believe in meeting people where they are instead of where we want them to be.

Starting Point

We do mental health differently.

Who we are

Starting Point is a psychiatric rehabilitation program, supporting individuals with a mental health diagnosis to reach their goals.

We partner with people from all walks of life to build on personal strengths to overcome barriers with new skills and resources.

Starting Point is a mobile service. Our trained psych rehab practitioners deliver services to people in their home or community.

What we do

1. Get to know you.
2. Build a respectful working relationship.
3. Explore what is important to you.
4. Learn what is getting in the way of achieving your hopes and dreams.
5. Create a plan with a step-by-step process.
6. Accomplish the plan together.

“Starting Point
changed my life
forever.

*I received professional
mental health support
from 4 trained
practitioners. I was given
the freedom to determine
my own life goals. I had
regular visits in my own
home. Most importantly,
I could be myself
without ridicule or
prejudice.”*

How we do it

Starting Point partners with people in a person-centered way that is unique to their recovery journey. Through Team-Delivered Service, people connect with several team members for support. We meet between 3-9 hours a week.

In every situation, we are committed to:

- Building respectful relationships.
- Discovering what is important to you.
- Empowering you to make your own choices.
- Assisting you in connecting to your community of choice.
- Helping you get back in control of your life.

Eligibility requirements

- Be a Montgomery or Bucks County resident
- Be 18 years of age or older
- Mental health diagnosis (ie. depression, anxiety, personality disorders, mood disorders, and more)

Average length of program is between 6 months and 2 years.
